

Workplace Injury Treatment Options

Workers' Compensation provides medical treatment for on-the-job injuries or occupational illness.

Many providers (including Primary Care Physicians) in the Amarillo area do not treat job-related injuries and the district's medical plan will not cover them as well. If you require immediate treatment, see the provider list below who accept Workers' Compensation. Please note, using an emergency room for "non-life-threatening" injuries may result in the delay of returning to work due to facility processing time and obtaining a provider release.
