| Welding Technology | Manufacturing | Business and Industry | PDHS | Articulated Credit / Amarillo College Level 1 Certificate | American Welding Society-Sense |

Programs of Study do not lock students into a college major or career. They should be chosen because of student interest. Colleges place priority on evidence of rigorous coursework on the transcript

Not all career interests have a program of study. Students should choose programs of study that are related to their career interest.

Advanced Placement credit can be earned at all campuses for designated courses. Dual credit classes can be earned at certain campuses and designated courses. See the course guide for additional

Articulated Credit programs are high school courses that contain the same course content as an equivalent college course, and for which a postsecondary institution has agreed to award college credit if the
